Backend Development: PHP (Expert), Laravel Framework, MySQL

Frontend Development: HTML5, CSS3, JavaScript, jQuery, Ajax/JSON, React.js (Beginner), Next.js (Basic)

APIs & Tools: RESTful API Development & Integration, Git, VS Code, Postman

CMS: WordPress (3 months experience)

Version Control: Git, GitHub

Other Tools: Composer, NPM, cPanel, Figma (for UI collaboration)

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer | Remote

2023 – Present

- Designed and developed multiple corporate websites from scratch, managing both front-end and back-end development.
- Built a digital product store dashboard (**EnjoyGames.shop**) for selling game codes and digital products.
- Integrated secure payment gateways and optimized database queries for performance.
- Ensured timely project delivery and client satisfaction through effective communication and agile methodologies.

Backend Developer (Laravel) | Al-Qeeq Technology Solutions

2023

- Developed a scalable e-commerce dashboard similar to Shopify using Laravel and MySQL.
- Designed and implemented RESTful APIs for seamless integration with front-end systems.
- Enhanced backend performance through caching, query optimization, and modular architecture.
- Collaborated with front-end developers to ensure consistent and efficient data flow.

Full Stack Developer | Digo Digital Marketing Company

2020 – 2021

- Led the full development lifecycle of five web platforms, including the company's official website (**digo.sa**).
 - Built an internal dashboard with financial and employee management modules.
 - Developed responsive, user-friendly interfaces using Bootstrap, jQuery, and custom JavaScript.
 - Worked closely with designers and marketing teams to align technical solutions with business goals.
-

PROJECTS

Digo.sa

- Full company website developed from scratch using Laravel, CSS, and JavaScript.
- Implemented a custom CMS for content management and analytics tracking.

EnjoyGames.shop

- E-commerce dashboard for selling digital game codes.
- Integrated payment systems and automated order management.

DigitalOngoing

- Beta e-commerce platform showcasing payment integration and UI/UX design capabilities.
 - Focused on responsive design and secure user authentication.
-
